PROFESSIONAL SUMMARY

Junior Frontend Developer specializing in React.js, Next.js, and TypeScript, with hands-on experience building full-stack applications using Strapi CMS and Redux Toolkit / RTK Query. I focus on writing type-safe, maintainable code and integrating REST APIs into scalable, production-ready interfaces.

EXPERIENCE

Front-End Intern 2025

Huma-Volve

- Built an interactive map feature using Geolocation & map APIs to help patients locate nearby doctors in real time.
- Engineered a Doctor Details Page (React + TypeScript) combining dynamic schedule, profile info, and embedded location map.
- Developed an Add Review Page with custom rating UI, form validation, and full REST API integration.
- Built a secure Payment Page supporting multiple payment methods with robust input validation.
- Integrated a real-time notifications system via REST API endpoints to surface live appointment updates.
- Collaborated with backend engineers to align API contracts, reducing integration friction across features.
- Delivered reusable, type-safe components in React + TypeScript following scalable front-end architecture patterns
